

Candida Screening Questionnaire

Answering these questions and adding up the scores will help you and your clinician decide if yeast may be contributing to your health problems.

For each section read the directions and score as indicated. Total your score and record it at the end of the section. Add the totals for each section to get your Grand Total Score.

Section A: History

For each “yes” answer, circle the point score for that question. Add up the total score and record it at the end of this section.

Grand Total Score _____

The Grand Total Score will help you and your clinician decide if your health problems are yeast connected. Scores in women will run higher as seven items in the questionnaire apply exclusively to women, while only two apply exclusively to men.

Men	Women	Interpretation
40 or below	60 or below	Yeast is less apt to cause health problems
41-90	61-121	Yeast-connected health problems are possibly present
91-140	121-180	Yeast-connected health problems are probably present
141 or higher	181 or higher	Yeast-connected health problems are almost certainly present
